CALL FOR ABSTRACTS

The Organising Committee of the 1st International Scientific Conference on Body Composition (ISCBC) invites you to share and present your research findings on body composition in this conference. We welcome abstracts align with the theme of the Conference: *Importance of Body Composition Assessment in Addressing Public Health Issues*. In this conference, you can submit your abstract for either oral or poster presentation. Abstracts should ONLY be submitted directly through our ONLINE ABSTRACT SUBMISSION system via the conference website (<https://www.iscbc2021.com>). Abstracts (max. 300 words in MS Word format) should be prepared according to the prescribed format. Details of the Conference, submission and acceptance status will be updated from time to time through the MSBC Conference's official website. The guidelines for oral and poster presentation will be uploaded in the conference website. Best winner for oral and poster presentation are awarded with cash prize and certificate.

About the Conference

The 1st International Scientific Conference on Body Composition (ISCBC) is organised by Malaysian Society of Body Composition (MSBC). The Conference aims to bring together leading academic scientists, researchers and practitioners to share experiences and research findings on body composition across the life course. The Conference also provides an interdisciplinary platform for researchers and practitioners to share the latest technological innovations, emerging trends, strategies and concerns on body composition assessments in addressing public health issues.

Participants

The conference is expected to attract health care professionals, including General Practitioners, Physicians, Nurses, Nutritionists, Dietitians, Occupational Therapists, Radiographers, Physiotherapists and Assistant Medical Officers who are interested in acquiring advance knowledge in the body composition area. Besides, other science professions and educators such as sports scientists, researchers, fitness instructors, physical education teachers, postdoctoral fellows, students and those who are actively involved in the area of body composition may participate in this conference.
