

2nd INTERNATIONAL SCIENTIFIC CONFERENCE ON BODY COMPOSITION

Organised by:

6–7 April 2026 | BERJAYA TIMES SQUARE, KUALA LUMPUR

Exploring the Nexus: Body Composition, Sports, and Nutrition for Optimal Health

This year's conference spotlights the powerful synergy between body composition, sports performance, and nutrition in shaping lifelong health and physical excellence.

Why you should attend?

- ✓ Showcase your research work on an international platform
- ✓ Network with locally and internationally recognised leading experts
- ✓ Discover the latest science advancing body composition and health performance
- ✓ Explore practical ways to apply cutting-edge research in real-world settings

Post-Conference Workshop: "Practical Applications of Body Composition Assessments"

Gain practical, hands-on experience with cutting-edge tools and techniques applied in research, clinical, and sports performance settings.

8–9 April 2026 |

Faculty of Medicine & Health Sciences,
Universiti Putra Malaysia
